Human Rights Council**Forty-eighth session**

13 September–1 October 2021

Agenda item 2

**Annual report of the United Nations High Commissioner
for Human Rights and reports of the Office of the
High Commissioner and the Secretary-General****Situation of human rights in Yemen, including violations and
abuses since September 2014****Report of the Group of Eminent International and Regional Experts on
Yemen*, *****Summary*

The Yemen conflict moves into its seventh year against the backdrop of an intolerable lack of political will towards its peaceful resolution. With Yemen experiencing an unparalleled humanitarian crisis, the Group of Eminent International and Regional Experts regrets that the conflicting parties continue to engage in serious violations of international human rights law and international humanitarian law, and that third States continue to provide arms and military support to parties to the conflict, with little regard for the immense suffering caused to the people of Yemen.

In this report, the Group - pursuant to Human Rights Council resolution 45/15 - presents an overview of its findings concerning violations and abuses committed in Yemen from 1 July 2020 to 30 June 2021, as well as providing a select retrospective analysis. The Group also recommends avenues to ensure accountability and secure truth, justice and reparations for victims.

* The present report was submitted late in order to reflect the most recent developments.

** The annexes to the present report are circulated as received, in the languages of submission only.

I. Introduction

1. In resolution 45/15, the Human Rights Council renewed the mandate of the Group of Eminent International and Regional Experts for a fourth consecutive year with the mandate to, inter alia, monitor and report on the situation of human rights in Yemen and to carry out comprehensive investigations into all alleged violations and abuses of international human rights law and all alleged violations of international humanitarian law committed by all parties to the conflict since September 2014, including possible gender dimensions of such violations. The Council broadened the Group of Eminent Experts' mandate to collect, preserve and analyse information, and to explore and report on recommended approaches and practical mechanisms of accountability to secure truth, justice and redress for victims.

2. In October 2020, the High Commissioner reappointed Kamel Jendoubi (Tunisia) (Chair), Melissa Parke (Australia) and Ardi Imseis (Canada) as experts. They accepted this responsibility in the knowledge that this mandate in particular would face expected operational difficulties occasioned by the continued global pandemic and access restrictions. But they also accepted this responsibility in the reasonable expectation that they would receive the requisite resources to discharge the expanded mission given to them by the Council. Regrettably, this was not the case. The Group is the only United Nations independent entity investigating and issuing detailed public reports on human rights violations in Yemen. It cannot succeed in its increasingly complex mission without the proper support from the international community.

II. Methodology and legal framework

3. Access restrictions to Yemen, COVID-19 pandemic restrictions, and significant limitations in investigation time and human resources, considerably impacted the work of the Group and its secretariat, who were obliged to narrow the range of their work and substantially alter their working methods. The Group of Experts deeply regrets that its work was deleteriously affected during this mandate by the United Nations recruitment freeze which significantly delayed the formation of its secretariat and limited its effective period of activity, including in relation to the collection, preservation and analysis of information. In addition, key posts were cut (e.g., child rights specialist and reporting officer) and no gender specialist was recruited before the completion of the report drafting. As a result, the Group was constrained in its investigations and compelled to adopt a strong retrospective focus, particularly in the gender and child rights-related segments of this report. Moreover, the secretariat's move from Beirut to Addis Ababa delayed the Group's operations. To their credit, the members of the secretariat discharged their functions with the highest professionalism and commitment despite the difficulties.

4. The Group of Eminent Experts' findings in this report should not be construed as suggesting that other violations and abuses did not occur, that some parts of the country not mentioned in this report were not similarly affected, or that parties have ceased committing particular violations. The Group continued to apply the "reasonable grounds to believe" standard of proof.

5. The Group of Eminent Experts conducted 152 interviews (mainly remotely) with victims, witnesses and other individuals and reviewed documents, open-source material, and additional secondary sources. It also relied on professional satellite imagery analysis conducted by the United Nations Satellite Centre. It paid particular attention to integrating gender in its methodology. In November 2020, the Group issued an online call for written submissions.

6. Where possible, the Group of Eminent Experts identified the individuals and/or armed forces or armed groups responsible for violations and abuses and prepared a strictly confidential list of individual alleged perpetrators for submission to the High Commissioner for Human Rights.¹

¹ This list is distinct from the 'Mapping of Main Actors' contained in Annex IV to this report.

7. The Group of Eminent Experts has continued to conduct its investigations within the framework of all relevant international legal norms, including international human rights law, international humanitarian law and international criminal law.²

8. Following its previous practice, the Group of Eminent Experts addressed requests for submissions to the Government of Yemen, the de facto authorities³, the southern transitional council, Saudi Arabia and the United Arab Emirates, and reviewed the comments received from some parties on the Group's previous report.⁴

9. The Group of Eminent Experts regrets that for a third consecutive year, it was not able to access Yemen and other coalition countries despite its repeated and unanswered requests. While the de facto authorities indicated their willingness for the Group to visit areas under its control, the Government of Yemen did not respond to the Group's requests for access to the country.

10. The Group of Eminent Experts holds the utmost concern about the protracted climate of fear and lawlessness in Yemen. Even when the Group adopted methodologies aimed at ensuring the safety and security of victims, witnesses, and organizations, fear still deterred many from engaging with the Group, or giving consent to the use of information. As a former detainee stated: "I don't want this to be public, I feel constantly at risk... There is no state presence."

11. The Group of Eminent Experts once again expresses its deepest gratitude to those who shared their traumatic experiences with the Group, and for the assistance provided by governmental and non-governmental entities and by United Nations agencies and partners.

III. Over six years of unceasing suffering

12. The conflict raging in Yemen for over six years has not reduced in intensity in 2020-2021. Notwithstanding considerable international and regional efforts to reach a ceasefire and to embark upon a peace process, the conflict remains intractable due to continued lack of political will of the parties to the conflict and relevant external actors. The previously signed power-sharing deal between the Government of Yemen and the southern transitional council remains largely dysfunctional, and negotiations between the de facto authorities and the coalition have not achieved any tangible progress. Moreover, military confrontations have escalated over a myriad of fronts within Yemen and outside its borders.

13. In late October 2020, the Houthis started a mobilization phase to enhance their preparedness for battle over Ma'rib. In February 2021, the Houthis began their attack on Ma'rib Governorate. Within weeks, the Ta'izz and Hajjah fronts became active once more. Other fronts in Hudaydah, Dhale', Jawf, and Bayda governorates also witnessed fighting. Heavy fighting has continued across frontline areas in Ma'rib Governorate, with hostilities particularly dominant in the Sirwah area, specifically in Mashjah, Kassarah, Zour and Tala'ah Hamraa. Currently, frontlines are only kilometres away from Ma'rib city. The coalition provides critical close air support to the Yemeni armed forces. The Houthi offensive has led to large waves of displacement within the Ma'rib Governorate, especially after the sites hosting internally displaced persons were shelled. Since the beginning of the year, the Houthis have also carried out multiple cross-border aerial attacks on Saudi Arabia. While most of the targets have been of a military nature, civilian infrastructure has also been hit.

14. In December 2020, the southern transitional council agreed to join a new government with the Government of Yemen. On 30 December 2020, an attack was launched on Aden airport, moments after the plane carrying members of the new government landed. As a sign of the continued fractured relationship between the southern transitional council and the

² A/HRC/45/6, paras. 10-13.

³ The term "de facto authorities" is used only to refer to the authorities based in Sana'a, where Ansar Allah as a political movement is the main actor, supported by an armed group referred to as the "Houthis".

⁴ The de facto authorities, the coalition and the United Arab Emirates submitted observations on the previous report.

Government of Yemen, on 16 March 2021, supporters of the southern transitional council stormed the Maasheq Presidential Palace in Aden.

15. The former Special Envoy of the Secretary-General for Yemen, Martin Griffiths, promoted a joint declaration with the Government of Yemen and the de facto authorities, encompassing a nationwide ceasefire, measures concerning humanitarian and economic relief, and resumption of the political process. The de facto authorities, however, have insisted on a stand-alone agreement concerning the seaports in Hudaydah, and the Sana'a airport, as a pre-condition for any further negotiations. In a positive development, in October 2020, the Special Envoy succeeded in implementing the exchange of 1,056 prisoners held by the Government of Yemen and the Houthis, in a deal facilitated by the International Committee of the Red Cross as part of the 2018 Stockholm Agreement.

16. In February 2021, the new United States administration announced changes in US policy towards Yemen, including ending the designation of the Houthis as a Foreign Terrorist Organization and declaring an end to its support for what it calls the coalition's "offensive operations" in the conflict. It remains unclear what this terminology means in practical terms.

17. Protracted conflict, disease outbreaks, the COVID-19 pandemic, flooding, import restrictions, an economic and fuel crisis, and limited humanitarian aid, have made everyday life in Yemen unbearable for many. According to the United Nations Office for the Coordination of Humanitarian Affairs, around 20.7 million people in Yemen currently require some form of humanitarian and protection assistance. More than 16.2 million of them will face significant food insecurity this year. Additionally, international funding has fallen far short of the required levels to address the humanitarian crisis.

18. A potential environmental catastrophe looms for Yemen and the whole of the Red Sea should there be a spill of the Safer oil tanker which is loaded with approximately 1.1 million barrels of oil. While the United Nations has sought to undertake assessment and salvage operations, the Houthis have not yet provided the necessary written security guarantees.

19. Notwithstanding the strong recommendations by the Group of Eminent Experts in its previous reports, third States, including Canada, France, Iran (Islamic Republic of), the United Kingdom of Great Britain and Northern Ireland and the United States of America, continued their support of parties to the conflict, including through arms transfers. Further, some States, such as Italy, have loosened previous restrictions. As the Group has previously noted, arms sales are fuel that perpetuates the conflict.

IV. The Group's findings

A. Conduct of hostilities and its impact on civilians: unrelenting violence, death, and constant fear

1. Airstrikes

20. Since March 2015, over 23,000 airstrikes have been launched by the coalition in Yemen, killing or injuring over 18,000 civilians.⁵ Living in a country subjected to an average of 10 airstrikes per day has left millions feeling far from safe. Although the frequency and intensity of airstrikes have fluctuated over the last four years, the Group of Eminent Experts has continued to observe their devastating impact on civilians. One paramedic, after visiting an airstrike site in Sana'a, stated:

One week later, I was in the area and, in the drainage of the hotel, we found more bodies. The dogs had started eating those bodies. One month later, I smelled around the area and when I went to the building, I found a leg in the drainage.

⁵ 8,772 civilians killed and 9,841 injured, Yemen Data Project, available at: <https://yemendataport.org/>

21. Since 2018, the Group of Eminent Experts has investigated some 30 airstrikes that killed and injured civilians.⁶ Civilians shopping at markets, receiving care in hospitals, attending weddings and funerals, children on buses, fishers in boats, migrants seeking a better life, individuals strolling through their neighbourhood, or simply being at home, were struck by airstrikes.

22. The coalition has largely rejected the previous findings of the Group of Eminent Experts, characterising them as being based on ‘assumptions.’⁷ The Group regrets that the coalition has justified not sharing targeting-related intelligence with the Group on the basis of “internationally common practice”, and the potential danger to sources, whilst sharing such information with its own investigation mechanism. The Group also regrets the failure of the Joint Incident Assessment Team (JIAT) to either provide detailed information in case summaries, or share supporting evidence. Notwithstanding these factors, the Group, on the basis of properly corroborated information and satellite imagery, has been able to draw conclusions about failures in specific airstrikes to respect the principles of distinction, proportionality and precautions in attack as required by international humanitarian law. There is little evidence that the coalition has taken these findings seriously.

23. During this mandate, the Group of Eminent Experts investigated four coalition airstrikes or series of airstrikes⁸ that killed and injured civilians and damaged civilian infrastructure. One example concerns an airstrike on 12 July 2020, around 1 p.m., in the village of Beit Qateeb, Washha District, Hajjah Governorate, that killed seven children (three boys and four girls) and two women in their house. A woman breastfeeding her baby and a boy were also injured. The house was in a remote area and was destroyed by the air raid. The JIAT concluded “technical error” caused these deaths and injuries, with the intended target being a Houthi command and communications centre some 780 metres away. It recommended assistance for “human losses and material damage”. The frequency with which JIAT finds “technical error” responsible for civilian losses without this leading to apparent changes in coalition procedures itself raises significant concerns as to the coalition’s commitment to meeting the requirements of international humanitarian law.

24. On 15 July 2020, at around 6.30 a.m., an airstrike hit a house in the Musa’fa village, Hazm district, Jawf Governorate, killing four men, two women, three girls and three boys, and injuring one woman, three girls and two boys, all belonging to the same family. It was followed by a second airstrike that hit a house approximately 200 to 300 metres away from the first one. The second airstrike caused property damage but no casualties, as the family living there had recently fled. The Group of Eminent Experts received information that the nearest frontline or Houthi military bases were located approximately five kilometres from the impact site. It was unable to complete its investigation at the time of finalizing this report.

25. In each of its reports, the Group of Eminent Experts has repeatedly reminded the coalition of its obligations to take all feasible measures to protect civilians from the effects of hostilities, and to abide by the principles of distinction, proportionality and precautions in attack. The Group remains concerned that the coalition is failing to meet these obligations. Disproportionate attacks constitute war crimes under customary international law.

2. Shelling attacks

26. The launching of missiles, rockets and shells by parties to the conflict into densely populated civilian areas, markets, prisons, internally displaced persons’ camps and homes have been found to constitute indiscriminate attacks, prohibited under international humanitarian law. Over the past four years, the Group of Eminent Experts has investigated more than 15 shelling attacks⁹ that have devastated civilian lives in this conflict. The majority of these attacks have been undertaken by the Houthis, with a small number attributed to the Government of Yemen and the coalition. The Houthis’ response to the Group’s last report denied responsibility for these attacks, attributing them to “the aggression coalition and their

<https://www.ohchr.org/EN/HRBodies/HRC/YemenGEE/Pages/Index.aspx>

⁸ See section IV.B.

⁹ A/HRC/39/43, paras. 40-45; A/HRC/42/17, paras. 31-42 and A/HRC/45/6, paras. 32-35.

mercenaries”.¹⁰ One shelling survivor in Dhale’ Governorate said: “Maybe a request for you, to help the innocent civilians, to ask the two sides to spare the civilians.” Another shelling survivor stated:

I fainted at the scene and later I went from hospital to hospital to find my son, and I found him. The doctor told me he had arrived dead. I am very distressed, but I usually keep quiet.

27. During the reporting period, the Group investigated a further three shelling incidents.¹¹ On 30 December 2020, between 13.24 p.m. and 13.26 p.m., three consecutive munitions, likely medium-ballistic missiles, hit Aden airport, shortly after a plane carrying members of the newly formed government had landed. As the officials were exiting the plane, the first missile struck the western side of the airport hall, creating a crater in the wall of the VIP lounge. The second missile hit a square allotted for the parking of incoming planes. A third missile hit the journalists’ area, just east of the hall. The attacks reportedly killed at least 25 people and wounded 110 others, including journalists. Analysis of the impact craters and blast radii indicate the munitions were fired from the north of the airport¹², an area reportedly controlled by the Houthis. Further investigation of this case is warranted. As one journalist, survivor of the Aden airport shelling, stated:

This is not a battlefield where, as a journalist, I would expect such missiles to fall... I have been in situations while I was reporting live, such as in the west coast, shelling would take place... But in a civilian airport? This has certainly caused fear among journalists.

28. Two days later, on 1 January 2021, at around 9.30 p.m., a wedding was taking place in the Al-Mansoura Wedding Hall in Airport Street, Hawak district, Hudaydah Governorate, when the area in front of the hall, where several wedding guests were waiting, was attacked. Two boys and one man were killed, and three boys and three men injured. A minibus used to transport wedding guests was also damaged. Satellite imagery and video footage of the area, analysed by the Group of Eminent Experts, indicate the presence of roadblocks within 30-40 metres of the site. The wedding hall appears to have been located close to the frontline between the opposing military forces in Hudaydah Governorate (i.e., the Houthis and the Joint Forces¹³). Due to its limited resources, the Group was not able to independently identify the party that carried out the attack. Further investigation is required.

29. On 3 April 2021, at around 4.30 p.m., a rocket - most likely a Katyusha - struck the residential Rawdha neighbourhood, in Ma’rib city, Ma’rib Governorate. Children were playing football in the sandy street of Haret Fateh when the rocket attack occurred. One boy was killed, and one man and three boys injured. The rocket was allegedly launched from a western direction, in an area said to have been under the control of the Houthis. No military presence was reported at or near the site before or during the attack.

30. The Group of Eminent Experts reiterates its concern that parties to the conflict, particularly the Houthis, continue to launch indiscriminate attacks prohibited under international humanitarian law. These are attacks not directed at a specific military objective, and/or attacks involving a means of warfare not capable of being directed at a specific military objective. These acts constitute war crimes under customary international law. Such incidents also reflect a failure to take all feasible precautions to minimize civilian casualties.

¹¹ See section IV.B.

¹² See annex II.

¹³ The “Joint Forces” in the West Coast, are backed by the United Arab Emirates, and are composed of the National Resistance/Guards of Republic, the Giants brigades and the Tuhamma brigades.

B. Violations related to the humanitarian situation: the hunger for survival in the midst of war

31. As the conflict moves into its seventh year, the intensification of hostilities, the COVID-19 pandemic, and the occurrence of natural disasters have left two thirds of the population in Yemen in need of humanitarian assistance for their very survival.¹⁴ The violations of international law committed by parties to the conflict have played a major role in creating and/or exacerbating the crisis. The civilian population is sinking deeper into hunger and poverty.

32. Several cities in Yemen remain under siege or are impacted by blockades. Restrictions by parties on freedom of movement and the siege-like warfare used by the Houthis around Ta'izz city since August 2015 and in Hajjah since the end of 2018, significantly impede humanitarian access and aid delivery.¹⁵ Cumbersome and overly restrictive bureaucratic measures imposed by parties delay relief operations and programs.¹⁶ The Group of Eminent Experts has verified cases of humanitarian personnel being targeted, harassed, detained and even killed.¹⁷

33. The protracted closure of Sana'a international airport since August 2016 by the Government of Yemen and the coalition precludes civilians from accessing life-saving health care unavailable within the country.¹⁸ Its reopening, together with access to Hudaydah port, is currently being held hostage to the peace negotiations. Restrictions on imports imposed by the coalition continue to contribute to shortages of fuel and food, causing price increases. During this reporting period, the Group of Eminent Experts documented the obstruction of imports into Hudaydah by the coalition. From March to June 2021, for instance, 13 vessels - carrying over 350,000 metric tons of fuel derivatives - were denied entry despite possessing relevant clearances. Similarly, on 27 June 2021, a vessel carrying 8,867 metric tons of liquefied petroleum gas was denied entry. As of 30 June 2021, two other vessels carrying fuel derivatives had been held up for 212 and 191 days, respectively. In addition to impacting critical services (including the production of food), such actions diminish the potential revenues to be used under the Stockholm and Hudaydah Agreements for the payment of outstanding salaries to civil servants, compounding the loss of purchasing power of many Yemenis.¹⁹

34. The Group of Eminent Experts has previously investigated attacks by parties to the conflict that, in a context of acute food insecurity, reflected a reckless disregard for the impact of their operations on the civilian population and their access to food.²⁰ During this reporting period, the Group has continued to investigate military operations impacting on food production and farms in areas known to be affected by food insecurity. In the early hours of 21 March 2021, two consecutive coalition airstrikes hit the Salif Grains Port, in Hudaydah Governorate. As a result, five male employees were injured, and the workers' accommodation and warehouse of the Yemen International Food Industries Co. Ltd. were partially damaged. On 14 June 2021, missiles, most likely from coalition airstrikes, hit two commercial poultry farms in Khamir district, Amran Governorate. One of the farms was destroyed. The Group is not aware of any military presence in the vicinity of either location. The Group also investigated the military use, by the Joint Forces,²¹ of the Thabet Brothers Group Complex - composed of 16 companies, including the production of food and dairy products - in Hudaydah Governorate, since 2018. This use rendered the complex a military target, although any attack would still be subject to limitations imposed by international humanitarian law. The Group documented three incidents of shelling on the complex on 3 December 2020, and 6 and 19 June 2021, by the Houthis, causing civilian deaths and

²¹ See footnote 13 above.

injuries, material damage to food production and water supplies, and the suspension of related activities. Due to limited resources, the Group was unable to conclude its investigations into these incidents.

35. Over the last four years, the Group of Eminent Experts has also investigated attacks by the parties on or affecting hospitals and medical facilities, in violation of the special protection afforded to these facilities under international humanitarian law. In a country in which the provision of adequate health care is already scarce, civilians continue to pay a high price every time a hospital is destroyed, closed or used for military purposes. A joint NGO report identified 81 incidents in 2020 alone in which health facilities were destroyed or damaged in Yemen, and indicated that in all the years of war, only half of Yemen's health facilities remained functional.²² The Group previously documented that, in November 2018, the Houthis set fire to three operating theatres in the 22 May hospital in Hudaydah and destroyed all laboratory machines with gunfire.²³ In June 2018 a coalition airstrike destroyed a newly constructed MSF cholera treatment centre in Abs,²⁴ and in March 2019, an airstrike caused severe damage to the Kitaf rural hospital, Sa'dah Governorate.²⁵ In February 2020, a Katyusha rocket exploded in the yard of the Jafrah hospital in Majzar District, Ma'rib Governorate, resulting in extensive damage to the building, interrupting medical services and necessitating the transfer of hundreds of patients to the Ma'rib hospital.²⁶

36. Based on its findings during the last four years, the Group of Eminent Experts restates its condemnation of acts by parties to the conflict that impede humanitarian operations and the population's access to food, necessary supplies and health care. The Group reiterates that the dire humanitarian situation in Yemen could be substantially mitigated if parties to the conflict began to respect and comply with their obligations under international law.

C. Enforced disappearances, arbitrary detention, torture and other forms of ill-treatment: perpetual anguish

37. Away from the frontlines, families are condemned to ongoing mental anguish by being deprived of knowledge as to the fate and whereabouts of their loved ones as parties to the conflict deny families' right to the truth. Over the last four years, the Group of Eminent Experts has investigated numerous cases in which detention was the precursor to torture, sexual violence and the denial of fair trial rights.²⁷

38. Over the past four years, the Group of Eminent Experts has further investigated disappearances, arbitrary detention and/or torture of journalists, human rights defenders²⁸ and religious minorities,²⁹ practices designed by parties to the conflict to silence their perceived opposition or to punish them for their religious beliefs, and to legitimize their power through the spread of fear. The son of a disappeared person stated: "I swear each day felt like a year."

39. During the reporting period, the Group regrettably observed parties to the conflict continuing to perpetrate these intolerable practices.

1. Government of Yemen

40. The Group of Eminent Experts received credible allegations regarding the arbitrary arrest and detention of a group of six medical workers (two doctors, three nurses and one hospital guard) by armed men affiliated to Government of Yemen forces. In late 2021, for

²² Safeguarding Health in Conflict Coalition (SHCC), *No respite: Violence against Health Care in Conflict*, 2021, p. 78, available at: <https://reliefweb.int/report/world/no-respite-violence-against-health-care-conflict>.

²⁸ See section IV.E.

²⁹ See section IV.D.

instance, the house of one of the medical workers was raided by a group of 15 armed men, wearing white uniforms with blue stripes, who took him to the Criminal Investigation Department of Shabwah Governorate. He was held there for eight days and was accused of “smuggling a group of injured men escaping justice” who were patients in the hospital where he works.

41. During the same period, in the Shabwah Governorate, four members and supporters of the southern transitional council were reportedly arbitrarily detained for nearly a week due to their political affiliation by armed men allegedly connected to the Government of Yemen. The brother of one of the disappeared stated: “We can't even know if he is still alive or dead.”

42. The Group of Eminent Experts received allegations relating to the enforced disappearance of a man in Aden in early May 2021, whose whereabouts remained unknown as of 30 June 2021. Friends were with him when he was taken away by a group of armed men in a white car. Sources told the Group he was detained by the “anti-terrorism forces controlled by the southern transitional council.” His family have searched for him in all southern detention centres but have received no official acknowledgement of his detention. The Group also received allegations that in early 2021 two men were arbitrarily detained in Aden by armed men from the southern transitional council. The two men were accused of cooperating with foreign organizations to criticize the southern transitional council.

2. De facto authorities

43. During the reporting period, the Group of Eminent Experts investigated the case of a woman who was allegedly forcibly disappeared and arbitrarily detained by the Houthis in a western governorate for three months in 2018, under false accusations of “working with the aggression.” She was taken from her workplace by a group of five Houthi armed men and two Houthi armed women, held in solitary confinement for three days without food, water or access to a toilet, and then transferred to a cell with inmates accused of murder. During this period, she was subjected to daily interrogation. Torture was inflicted through repeated beatings and threats made with respect to her family, as she was forced to confess she worked for the “aggression.” Her family repeatedly sought information from authorities who denied any knowledge of her detention. Since her release, she has lived in constant fear that this could happen again.

44. The Group of Eminent Experts investigated the case of a woman who, in early 2020, received threats aimed at stopping her speaking out against the Houthis. Days later she went missing from her home. Her family searched for her in vain for nine months, approaching authorities who denied holding her. In late 2020, her family received a call from a stranger informing them that she was in a hospital. They found her there, paralysed by a stroke which left her unable to speak.

45. The Group of Eminent Experts also investigated the case of a man in a northern governorate, who was taken away by six masked armed men, wearing khaki uniforms, and arbitrarily detained in a Houthi Security and Intelligence Service prison. He was denied the ability to communicate with his family, leaving them with no information as to his whereabouts for eight months. When his family finally learned where he was being held, Security and Intelligence Service informed them that he had been sentenced to over two years imprisonment. However, information collected by the Group indicates that he had not been charged, tried or sentenced. The Group has received credible accounts indicating that Houthi Security and Intelligence Service personnel have given false information to the families of disappeared persons to dissuade them from making further inquiries.

46. The Group of Eminent Experts continues to have reasonable grounds to believe that parties to the conflict have engaged in enforced disappearance, arbitrary detention, and torture, in violation of international human rights law and, depending on the level of nexus with the conflict, international humanitarian law. Such acts may amount to war crimes, including cruel treatment and torture, and committing outrages upon personal dignity.

D. The situation of internally displaced persons, migrants and minorities: intersecting and compounded vulnerabilities

47. The actions of the parties to the conflict continue to exacerbate the vulnerability of those already marginalized in Yemen. Hostilities, violence, and patterns of attack³⁰ often force civilians to leave their homes. Many displaced persons, most of whom are women and children, have had to flee repeatedly, enduring the risks that each new displacement entails. As a shelling survivor, who was forced to flee, stated: “These are real crimes, we’ve been displaced.” Notwithstanding the war, migrants continue arriving in Yemen as a transit point in search of a better future (in 2020, more than 37,000 migrants arrived),³¹ only to be caught in deadly crossfire³² or subjected to arbitrary detention and torture, including sexual violence.³³ Minorities continue to live under threat of persecution.³⁴

1. Internally displaced persons

48. Throughout March 2021, internally displaced persons camps in the northern outskirts of Ma’rib City district were shelled. The camps of Meel, Tawasol, and Khair were located around 1-3 km away from clashes between the Government of Yemen forces and the Houthis. The Houthis, who were positioned at Haylan mountains to the west of the three camps, were allegedly firing rockets, mortars and heavy machine guns in an eastern direction towards the Yemeni armed forces.

49. Based on information collected by the Group of Eminent Experts, in March 2021, nine internally displaced persons (six women and three children) were injured, and tents and water tanks in the camps sustained significant damage. Shelling on the camps intensified in the second half of March. By the end of March, camp residents were forced to flee once again. This resulted in the reported displacement of around 460 families. One internally displaced man stated:

I was first displaced to al-Khaneq, then to Medghal, then to al-Meel, and then to al-Suwayda. Only God knows how bad the situation in which we’re living is... We went by foot... I carried two children on my back, and my wife carried one... when I remember, I cannot help but tear up. It was just so sad.

50. The Group of Eminent Experts reviewed statements by senior Houthi officials who claimed that Yemeni armed forces were using camps in the northern and western parts of the Ma’rib Governorate for military purposes. Due to a lack of resources, however, the Group was unable to complete its investigations into these incidents.

2. Migrants

51. Since the beginning of February 2021, the de facto authorities have reportedly detained hundreds of migrants, mostly Ethiopian and Somali nationals, holding them for months in overcrowded wards within the Immigration, Passports and Naturalization Authority’s so-called “Holding Facility” in Sana’a. On 7 March 2021, migrants at the facility were on hunger strike protesting their arbitrary detention and conditions of detention. A skirmish broke out between the protestors and several Houthi security guards. Migrants were pushed into a hangar-like building and locked up. Houthi anti-riot police arrived at the facility and launched several projectiles, one of which is said to have started a fire in the hangar-like building that was holding over 350 migrants. As a result, at least 46 adult migrant men were killed, and more than 202 others injured. That same day, the Houthi Ministry of Interior sought to deflect responsibility by issuing a statement claiming the International Organization for Migration and United Nations bore responsibility due to their failure to provide shelter for “illegal migrants”.³⁵ On 20 March, the Ministry of Interior stated that, according to their

³⁴ A/HRC/42/CRP.1, paras. 639-643, 823/832 and A/HRC/45/CRP.7, paras. 304-309.

³⁵ Available at: <https://www.smc.gov.ye/archives/14212>

preliminary investigations, the anti-riot police had used three tear gas grenades to control the riot and one of them had fallen on mattresses causing the fire. He added that, as a result, they had arrested 11 Houthi soldiers in connection with this incident and that investigations are ongoing.³⁶ A male migrant survivor stated:

When people rushed to the door, those who were strong enough were able to make it, those who were sick and weak were stepped over, it was a fight for survival, no one remembered anything other than saving his own life. I thought that was the last day of my life, but thanks God, I managed, but sadly many others couldn't, I didn't know that the life of human being would be so cheap and worthless.

3. Minorities

52. In July 2020, the Houthi Supreme Political Council 'pardoned' Hamed bin Haydara and other five Baha'i men, who had been imprisoned for years without due process, and expelled them from Yemen. The six men were denied the opportunity to communicate with their families prior to being exiled. In August 2020, a local court started a trial in absentia against 24 Baha'is, including five of the six men expelled. In April 2021, the court proceedings were adjourned. During the reporting period, Houthis have confiscated and frozen the assets of more than 70 members of the Baha'i community.

53. The Group of Eminent Experts reviewed statements by the Houthi leader, Abd El-Malik Houthi, inciting violence and discrimination against religious minorities, including the Baha'i and Jewish communities. For instance, on 10 March 2021, he stated: "They don't want to coexist...they want to take away the sovereignty of Islam." The Group confirmed that in 2018 Houthi authorities introduced into the mandatory curriculum at Sana'a University a publication discriminatory against the Baha'i community. Similarly, a Yemeni Jewish man has been detained since March 2016, despite a number of judicial rulings requiring his release.

54. The Group of Eminent Experts concludes that internally displaced persons, migrants and minorities continue to face a heightened level of violations of their rights.

E. The silencing of journalists and human rights defenders

55. Journalists and human rights defenders have told the Group of Eminent Experts of the dangers they face in undertaking their work in Yemen. Many of them stopped working after surviving arbitrary detention and torture. Others stopped due to threats to their liberty and physical security, or that of their families, and fear of reprisals. Some have left the country entirely. A Yemeni human rights defender affirmed, "I was forced to close my organization's office as a result of a series of direct attacks against my staff". A Yemeni journalist, former detainee, and torture survivor stated:

I have been asked by interrogators about spying for an international organization as a journalist...They told me: 'we know everyone in your family, and if you mess with us, you know what we can do'.

56. Over the past four years, the Group of Eminent Experts has documented expression and activism being 'punished' by the parties to the conflict who have subjected journalists and human rights defenders - perceived as dissidents or opponents - to enforced disappearances, arbitrary detention, torture and even death.³⁷

57. The Group of Eminent Experts investigated the killing in Aden in June 2020 of a male photojournalist, who used to cover the war in the southern governorates.³⁸ The Group regrets that during this reporting period the investigation into his death has not substantially

³⁶ Available at: <https://www.ansarollah.com/archives/421005>

³⁷ A/HRC/39/43, paras. 76, 81-85; A/HRC/42/17, paras. 69-73 and A/HRC/45/6, paras. 60-67, 89.

³⁸ A/HRC/45/CRP.7, para. 108.

progressed. Several months after this killing, a TV journalist was killed, and nine other journalists were injured during the shelling attack on the Aden airport.³⁹

58. The Group of Eminent Experts also continued to investigate the case of the ten journalists detained⁴⁰ by the de facto authorities in 2015 on charges of ‘spying’. In April 2020, four of them were sentenced to death by the Specialized Criminal Court in Sana’a and one was released. As of 30 June 2021, these four remained on ‘death row’ awaiting appeals. On 28 February and 29 March 2021, the Specialized Criminal Appeals Court in Sana’a reportedly held hearings without the journalists’ presence. The Group reiterates its concerns about this case and more generally as to the use of the death penalty in Yemen in contravention of international law. The Group welcomes the release, on 15 October 2020, of the remaining five journalists as part of a prisoner exchange agreement, and calls for the release of all journalists who remain arbitrarily detained.

59. Further to its previous investigations into cases of arbitrary detention and sexual violence against women activists by the Houthis⁴¹, during the reporting period the Group of Eminent Experts verified a case of enforced disappearance, arbitrary detention, and torture, including sexual violence, against a female human rights defender. She was held in prolonged solitary confinement for four months in an underground cell with no light, and was only removed from the cell every two days to be raped: two Zainabiyat⁴² officers would take her to another room, take off her clothes and call a man saying: ‘she is ready’. As she stated:

I lost everyone. All my friends refused me when I was released, as the Houthis spread rumours that I was accused of prostitution. I am having problems with my family too... I need justice.

60. During the reporting period, the Group of Eminent Experts received allegations concerning attempts by the southern transitional council to control and censor journalists and the media in Aden. The Group verified a case of enforced disappearance, arbitrary detention, and ill-treatment of a journalist who now resides in exile. In 2020, he was held arbitrarily for several months by the southern transitional council. After his family learned of his whereabouts, his lawyer was told by the authorities that there were orders not to release him. Due to a lack of prosecutorial evidence, he was recently released.

61. The Group of Eminent Experts continues to have reasonable grounds to believe that parties to the conflict have continued to violate the rights of journalists and human rights defenders, including women human rights defenders. The violations suffered include the rights to life, liberty and security, freedom of expression, the right not to be subject to torture, including sexual violence, the right to work and fair trial guarantees.

F. Irreparable harm to children

62. The Group of Eminent Experts remains deeply concerned about the irreparable harm parties continue to inflict on children and the realization of their rights. During this mandate, the Group continued to investigate cases of children killed and injured by indiscriminate shelling and airstrikes. In addition, children presently account for 54 per cent of the 20.7 million people in need of humanitarian assistance or protection in Yemen⁴³, including basic health care.

63. Since its creation, the Group of Eminent Experts has extensively investigated the recruitment and use in hostilities of children under the age of 18 (some under 15) by all parties to the conflict.⁴⁴ The Group has noted the wide-scale and pervasive nature of

³⁹ See section IV.A.2.

⁴⁰ A/HRC/45/CRP.7, para. 356 and A/HRC/45/6, para. 89.

⁴¹ A/HRC/42/CRP.1, para. 395-402, 650-654 and A/HRC/45/6, para. 70.

⁴² The Zainabiyat are Houthi women’s security groups, trained to support the Houthis by, inter alia, maintaining order in detention facilities.

⁴³ Yemen Humanitarian Needs Overview, February 2021, p. 4, available at: https://yemen.un.org/sites/default/files/2021-05/yemen_hno_2021_final_version_1.pdf

⁴⁴ A/HRC/42/CRP.1, para. 672.

recruitment of boys and girls by the Houthis.⁴⁵ The Group has also investigated cases of children being recruited in Yemen, trained in Saudi Arabia and used in hostilities in Yemen by the coalition and the Government of Yemen.⁴⁶ The Group has further investigated the detention of children for their alleged association with parties to the conflict.⁴⁷ Due to limited resources during this reporting period, the Group had reduced capacity to undertake further investigations, but it documented the recruitment and use of two 16-year old boys at the Ma'rib fronts by the Houthis. One of the boys allegedly died in combat. In 2020, the Secretary-General's report on Children in Armed Conflict reported 163 verified cases of children being recruited and used by parties to the conflict.⁴⁸

64. Economic hardship wrought by the conflict has exacerbated some pre-existing traditional harmful practices against children in Yemen, such as forced and early marriage.⁴⁹ Additionally, during the course of its investigations, the Group of Eminent Experts has noted accounts of children having to leave school and assume a breadwinner's role after their parents or guardians were killed, disappeared or displaced. The Group has previously noted that 21 per cent of households in Yemen are led by girls under the age of 18.⁵⁰

65. Today, over two million children in Yemen are not attending school⁵¹ for different reasons, one of them being the conflict itself. Parties to the conflict use schools for military purposes, rendering them military objects subject to attack.⁵² During this reporting period, the Group of Eminent Experts documented attacks against two schools that, since around 2018, have been used for military purposes in the Hudaydah and Ta'izz governorates, preventing students from accessing education in these locations and jeopardising access by future generations.

66. In light of its findings over the last four years, the Group of Eminent Experts reiterates its concerns about the blatant disregard by parties to the conflict of the rights to which children are entitled under international human rights law and international humanitarian law.

G. Widespread gender-based violence

67. Yemen ranks second to last in the world in terms of gender equality.⁵³ Parties to the conflict have committed gender-based violence, including sexual violence, have persecuted persons seen as transgressing gender norms, and have compounded existing inequalities.⁵⁴

68. The Group of Eminent Experts previously investigated widespread cases of rape and other forms of sexual violence against migrant women, girls and boys committed by the Security Belt Forces backed by the United Arab Emirates in Aden.⁵⁵ It documented the increase of violations of the rights of persons with non-conforming sexual orientation and/or gender identity by the Houthis and the Security Belt Forces.⁵⁶ The Group also investigated cases of women and girls arbitrarily detained and sexually abused by the Houthis in secret detention facilities in and around Sana'a between December 2017 and December 2019, often accused of prostitution and immorality, supporting the coalition, spying and affiliation with enemies.⁵⁷

⁵⁵ A/HRC/42/17, para. 77, A/HRC/45/CRP.7, para. 198 and A/HRC/45/CRP.7, paras.194-204.

⁵⁶ A/HRC/42/CRP.1, para. 633 and A/HRC/45/CRP.7, paras. 214-222.

⁵⁷ A/HRC/45/6, para. 70 and A/HRC/45/CRP.7, paras. 205-213.

69. The Group of Eminent Experts continued to investigate the arbitrary detention and denial of fair trial rights to Asmaa Omeissy⁵⁸ by the de facto authorities. Her initial sentence of flogging, following her conviction on “morality” charges, was commuted to 15 years imprisonment. Since her detention, she has spent most of her time in solitary confinement. A request for her to undertake medical treatment outside prison - due to her deteriorating health condition - was allegedly denied. As of 30 June 2021, her request for appeal before the Supreme Court remained pending.

70. Another example of the de facto authorities’ abuse of the justice system to reinforce traditional gender norms is the arbitrary detention of 20-year-old Yemeni actress and model, Intisar Al-Hammadi, and a female colleague. On 20 February 2021, in the Shamlan area, western Sana’a, a group of around ten armed men in civilian clothes searched the two women and took them to a criminal investigation unit in Sana’a without informing them of any charges. They remained in incommunicado detention for 10 days, without receiving any food. During this time, they were subjected to ill-treatment and continued interrogation while blindfolded, and coerced to sign confessions for cannabis possession and prostitution. The Group of Eminent Experts was informed that in late February 2021, the specialised criminal prosecution service refused to receive the case for lack of evidence and referred it to the public prosecution of West Sana’a. The latter allegedly issued an order to extend their detention for 45 days and to transfer them to the Central Prison in Sana’a. As of 30 June 2021, Ms. Al-Hammadi’s lawyer was not able to access her case file and has unsuccessfully requested her unconditional release, while himself being subjected to threats.⁵⁹

71. In late 2020, a woman was taken by a large group of Zainabyat to the Security and Intelligence Prison in Sana’a where she was held in solitary confinement for several months while hearing the screams of babies and children who were reportedly in detention with their mothers. She was shocked daily with electric batons and deprived of sleep, being left to stand on one leg for periods of more than eight hours under the monitoring of Zainabyat officers. Each time she fell she was beaten. When she was not being beaten, she was taken to a room where she was regularly raped by groups of men. She stated: “Every time they raped me, I kept silent to survive...hoping to be released.” Her experience reflects almost identical patterns of violations to those previously documented by the Group.⁶⁰

72. The already limited capacity to address sexual and gender-based violence in the Yemeni criminal justice system collapsed with the outbreak of the conflict.⁶¹ The Group of Eminent Experts has received reports that law enforcement agencies within the Government of Yemen and the de facto authorities have refused to investigate and prosecute cases of gender-based violence.⁶² Therefore, survivors continue to be re-victimized and denied any measure of solace and redress.

73. The Group of Eminent Experts reiterates its strong condemnation of the commission by parties to the conflict of gender-based violence, including sexual violence, in contravention of international human rights law and international humanitarian law. Such acts may amount to war crimes, including rape and other forms of sexual violence, cruel treatment and torture, and committing outrages upon personal dignity. The Group also abhors the abuse of the justice system to reinforce traditional gender roles.

V. Accountability⁶³

74. Urgent remedial action is required if victims are to regain any hope that their rights to truth, justice and reparation will be realised. As a shelling survivor stated previously to the Group of Eminent Experts: “We are in a time of war, there is no investigation and civilians

⁵⁸ A/HRC/45/6, para. 346.

⁵⁹ Yemeni Bar Association’s statement, 2 May 2021, available at: <http://www.sanaalawyers.org/modules.php?name=News&file=article&sid=1728>

⁶⁰ A/HRC/45/6, para. 70.

⁶¹ A/HRC/39/43, para. 86.

⁶² A/HRC/42/CRP.1, para. 635.

⁶³ See conference room paper A/HRC/48/CRP.4, available at: www.ohchr.org/EN/HRBodies/HRC/YemenGEE/Pages/Index.aspx

are targeted by all parties.” The small developments in the field of accountability have been by no means adequate or sufficient to quell the ‘pandemic of impunity’ that the Group has previously described in relation to the serious violations of international human rights law and international humanitarian law being committed in Yemen, some of which may amount to international crimes.

75. During this reporting period, the Group of Eminent Experts understands that the National Commission of Inquiry of the Government of Yemen has continued to monitor and to document a large number of violations, notwithstanding the challenges posed by COVID-19 and the security environment. Yet, there has been no increase in the total number of criminal prosecutions instituted. The 19 cases reported to be before the courts in 2020 remain pending. At the Human Rights Council in September 2020, the Government of Yemen announced its intention to establish a specialized court to prosecute human rights violations. As of 30 June 2021, no formal action had been taken to establish such a court. Whilst welcoming the expressed commitment of the Government of Yemen to ensure accountability, the Group notes that such an initiative alone will not relieve the need to address deep-seated weaknesses in the justice system including compromised levels of judicial independence and politicisation, inadequate victim and witness security, frequent violations of fair trial rights and gender bias.

76. In relation to the coalition, the Group of Eminent Experts notes that the JIAT has completed a further 18 investigations during this reporting period (making a total of over 200 investigations), primarily relating to airstrikes. A further two cases have been referred to military prosecutors for breaches of the rules of engagement. Of the eight cases previously referred, it is understood that a first instance trial has been completed in only one case, with two other cases described as nearing completion in late 2020. No public information is yet available in relation to the proceedings. However, the Group continues to have concerns that coalition members are not acting with appropriate speed, diligence and transparency in pursuing investigations and prosecutions and that the prosecutions may not reflect the seriousness of the international humanitarian law violations and potential international crimes involved.

77. The de facto authorities have not been willing to admit to potential violations and take remedial action. They have repeatedly characterised allegations against their personnel as being based on unreliable or hostile sources. In July 2021, the de facto authorities informed the Group of Eminent Experts of their intention to establish an independent national investigation committee. They reported that the allegations in the Group’s reports had been referred to relevant authorities, despite their critique of the sources and methods employed by the Group. Little specific action has, however, been apparent. The continuing failure by the de facto authorities to undertake appropriate investigations, notwithstanding several years of consistent reporting by the Group of Experts, indicates either an alarming neglect or wilful blindness as to the seriousness of violations being committed by their personnel.

78. Accountability extends beyond the criminal justice field to incorporate all aspects of victims’ rights to truth, justice and reparation. Whilst many aspects of a comprehensive response may need to await a post-conflict period, it is urgent that authorities, based on consultations with victims, take steps to alleviate the harm that is currently being experienced. There is a pressing need to provide, for instance, immediate medical aid, psycho-social support, assistance with employment, housing and food, and other material support. As one interlocutor said to the Group of Eminent Experts in describing the victims of an airstrike:

This was a very poor family which barely had any food to eat. They did not receive any help from anyone after the incident, apart from some food products from [a humanitarian organization], which lasted them only a month.

79. Available information on the fate and whereabouts of disappeared relatives can and must be shared pursuant to victims’ right to truth. Acknowledgment can be given of the violations that have occurred. Changes to procedures can be instituted to minimise the likelihood of repetition of violations.

80. At present, the coalition has a programme to provide some relief. Financial assistance is provided to those affected by airstrikes through the Joint Committee mechanism. As of late

2020, the coalition reported having made payments to those affected by six airstrikes. This, however, is only a fraction of the 18 cases referred for ‘accountability action’ or in which ‘technical error’ had been conceded by this time. The precise mechanisms for the choice of airstrikes or identification of beneficiaries remains opaque.

81. Neither the Government of Yemen nor the de facto authorities appear to have any current redress schemes.

82. In light of the ongoing significant accountability gap in Yemen, the Group of Eminent Experts reiterates its call for greater and immediate international action. The Group once again urges the Security Council to refer the situation in Yemen to the International Criminal Court as a priority. Whilst welcoming the Council’s designation of the former Director of the Criminal Investigations Department in Sana’a (now deceased) as subject to its resolution 2140 (2014) sanctions regime on human rights grounds, it encourages further designations across the spectrum. The creation of an international criminal investigative body similar to that established for Syria and Myanmar, could practically support future prosecutions, whether at the national, regional or international level. Third States are encouraged to use all potential forms of jurisdiction (including universal jurisdiction). Equally, the Group reiterates its grave concerns about third States transferring arms to parties in the conflict given the context of documented patterns of violations.

83. For peace to be sustainable in Yemen, it is imperative that it be based on respect for human rights, including the core principle of accountability. Even at this stage, measures can be undertaken to increase ‘peace preparedness’. Four areas in particular merit attention. First, there is a need to enhance the inclusiveness of the peace process. Further modalities should be adopted to ensure that the voices of underrepresented groups (including women, youth, and minorities) and civil society are heard and can influence any potential peace agreement. Second, encouraging an explicit principled commitment to accountability at an early stage of discussions would significantly assist the way that issues of accountability and transitional justice are later conceptualised and operationalised. Third, it is vital to create and preserve space for discussions on a comprehensive transitional justice response, prioritising the involvement of victims. Fourth, targeted initiatives could strengthen the capacity of Yemeni civil society in areas such as documenting violations, integrating gender, considering comparative models of transitional justice mechanisms, and navigating and influencing peace processes.

VI. Conclusions and recommendations

A. Conclusions

84. **The findings of violations presented by the Group of Eminent Experts in this report, and over the last four years, represent only a partial sample of those causing extreme suffering for civilians every day in Yemen.**

85. **The Group of Eminent Experts continues to have reasonable grounds to believe that the Governments of Yemen, Saudi Arabia, the United Arab Emirates and the southern transitional council, to the extent they exercise jurisdiction, and as applicable to each party, have been responsible for human rights violations including arbitrary deprivation of life, enforced disappearances, arbitrary detention, gender-based violence, including sexual violence, torture and other forms of cruel, inhuman or degrading treatment, the recruitment and use in hostilities of children, the denial of fair trial rights, violations of fundamental freedoms, and economic, social and cultural rights.**

86. **The Group of Eminent Experts continues to have reasonable grounds to believe that the de facto authorities have been responsible for human rights violations in the areas over which they exercise effective control, including arbitrary deprivation of life, enforced disappearances, arbitrary detention, gender-based violence, including sexual violence, torture, and other forms of cruel, inhuman or degrading treatment, the**

recruitment and use in hostilities of children, the denial of fair trial rights, and violations of fundamental freedoms, and economic, social and cultural rights.

87. The Group of Eminent Experts continues to have reasonable grounds to believe that the parties to the armed conflict in Yemen have committed a substantial number of violations of international humanitarian law. Subject to a determination by an independent and competent court, the Group finds that:

(a) Individuals in the coalition, in particular from Saudi Arabia, may have conducted airstrikes in violation of the principles of distinction, proportionality and precaution, acts that may amount to war crimes;

(b) Individuals in the Government of Yemen and the coalition (in particular from Saudi Arabia and the United Arab Emirates) and the southern transitional council have committed, as applicable to each party, acts that may amount to war crimes, including murder of civilians, torture, cruel or inhuman treatment, rape and other forms of sexual violence, outrages upon personal dignity, denial of fair trial, and enlisting children under the age of 15 or using them to participate actively in hostilities;

(c) Individuals in the Government of Yemen and the coalition have conducted indiscriminate attacks using indirect-fire weapons, acts that may amount to war crimes;

(d) Individuals in the de facto authorities have conducted indiscriminate attacks using indirect-fire weapons and have used anti-personnel landmines, acts that may amount to war crimes;

(e) Individuals in the de facto authorities have committed acts that may amount to war crimes, including murder of civilians, torture, cruel or inhuman treatment, rape and other forms of sexual violence, outrages upon personal dignity, denial of fair trial, impeding humanitarian relief supplies, and enlisting children under the age of 15 or using them to participate actively in hostilities.

B. Recommendations

88. Over the past three mandates, the Group of Eminent Experts has made recommendations addressed to the parties to the conflict, States and regional and international organizations. The Group regrets that, to a large extent, these recommendations have not been acted upon. As such, all of the recommendations remain relevant and must be implemented if there is to be any reasonable prospect of ending the deep suffering of the civilian population. All that is required to implement the recommendations is political will.

89. The parties to the conflict shall notably:

a) Agree to a full cessation of hostilities and achieve a sustainable and inclusive peace, through a comprehensive and inclusive peace process with the full involvement of women, young people and minority groups;

b) Immediately cease all acts of violence committed against civilians in violation of applicable international human rights and international humanitarian law and take all feasible precautions to protect civilians and civilian infrastructure;

c) Immediately end any measures that worsen the humanitarian crisis, in particular remove all restrictions on the safe and expeditious entry into Yemen and distribution to civilians of humanitarian supplies and other goods indispensable to the civilian population, cease attacks affecting hospitals and objects indispensable to the survival of the civilian population, and take appropriate steps to ensure the realization of the right to an adequate standard of living of the population;

d) Immediately review, through a competent judicial authority, the legality of detention of all inmates in both official and non-official detention facilities, release those who are arbitrarily detained and ensure respect of all rights of detainees including the right not to be subjected to torture, including sexual violence and ill-treatment, and the right to a fair trial;

e) **Respect and protect the rights to freedom of expression and religion or belief, as well as other fundamental rights and freedoms; cease arbitrary arrests and acts of harassment aimed at preventing the free exercise of these rights, including those directed at journalists, human rights defenders and minorities.**

90. **Respecting human rights requires parties to the conflict to do considerably more to ensure accountability for violations and effective remedies for victims, including to:**

a) **Conduct prompt, transparent, independent, impartial, thorough, credible, effective and gender-sensitive investigations of all violations and crimes committed during the conflict; and ensure accountability of the perpetrators and justice for the victims and take measures to ensure the protection of victims and witnesses in such processes;**

b) **Cooperate fully with and effectively support the National Commission of Inquiry to investigate allegations of violations and abuses committed by all parties to the conflict in Yemen;**

c) **Strengthen the capacity of local organizations and international non-governmental organizations for monitoring human rights and humanitarian law violations, including gender-based violence and violations of children's rights;**

d) **Cooperate fully with the Group of Eminent Experts.**

91. **Other States and regional and international organizations must fully support initiatives to end violations and ensure accountability, and in particular:**

a) **Promote and support all efforts, notably by the Special Envoy of the Secretary-General for Yemen, to reach a cessation of hostilities and achieve a sustainable and inclusive peace;**

b) **Take all reasonable measures to ensure respect for international humanitarian law and international human rights law by all parties to the conflict; in particular, by ceasing to provide arms and military support to the parties;**

c) **Provide support to parties in strengthening accountability mechanisms, and take specific initiatives at the international level or in third States as appropriate in pursuance of accountability;**

d) **Provide appropriate funding of humanitarian aid to support the fulfilment of human rights in Yemen;**

e) **Keep the situation of human rights in Yemen on the Human Rights Council agenda and provide necessary support to OHCHR to ensure that the renewal of the mandate of the Group of Eminent Experts is accompanied with the necessary human and financial resources for the effective delivery of its mandate, including by extending its temporal mandate beyond one year.**

92. **Finally, the Group of Eminent Experts reiterates that the Security Council should integrate the human rights dimensions of the conflict in Yemen more fully into its agenda and ensure there is no impunity for the most serious crimes by, inter alia, referring the situation in Yemen to the International Criminal Court, and expanding the list of persons subject to Security Council sanctions under resolution 2140 (2014).**
