

Pledge submitted by Stop Ecocide International to the Human Rights 75 Secretariat
December 2023

Original language of submission: English

Type of pledge: Single (by one state/actor)

Pledging entity: Stop Ecocide International

Location: United Kingdom of Great Britain and Northern Ireland

PLEDGE NUMBER 1: Stop Ecocide International (SEI) pledges to take concrete actions to protect and promote human rights, with a focus on the right to a clean environment in the face of emerging challenges, especially ecocide within 3 years. This pledge would reinforce potential synergies between the implementation of ecocide law and the realisation of the right to a healthy environment. SEI will organise global awareness campaigns, events, and consultations, emphasising the connection between the right to a healthy environment and the criminalisation of severe environmental harm. We will collaborate with other organisations to champion our cause and its implications for human rights.

Expected deadline within which pledge will be realised: Dec 31, 2026
